

THE OXFORD COUNTY CITIZEN

VOLUME XXXVIII—NUMBER 2.

BETHEL, MAINE, THURSDAY, APRIL 21, 1932.

Four Cents Per Copy—\$2.00 Per Year

BETHEL AND VICINITY

Theodore Eames returned home from Pompano, Fla., Thursday.

Mrs. Rena Foster of Dorchester, Mass., is visiting friends in town.

Mrs. H. S. Jodrey and Mrs. Bernice Heath were in Lewiston Monday.

Dr. and Mrs. R. R. Tibbets were in Brunswick Tuesday to see their son Ashby.

T. I. Brown returned Saturday from a trip to Montreal, Quebec, and Detroit.

Mr. and Mrs. Louis Van were week end guests of Mrs. Van's parents at Weeks Mills.

Dr. W. B. Twaddle who was taken to the C. M. G. hospital, Lewiston, Thursday is reported as improving.

Judge H. H. Hastings and E. C. Park attended Probate Court at South Paris Wednesday.

Miss Mary Stanley spent the afternoon with Mrs. Howard Gunther and family one day last week.

Mrs. Norman Sanborn is spending this week in Portland, the guest of her daughter, Mrs. Grant Maxson.

Albert Grover and John Harrington went to Lewiston April 13, where they attended the J. B. Ham Co. banquet at the DeWitt Hotel.

Mr. and Mrs. Guy Thurston and two children of Stillwater were week end guests of his mother, Mrs. Elizabeth Thurston.

Mrs. Wesley Wheeler entertained the Past Chiefs of the Pythian Sisters April 13, at her home on Chapman Street.

Miss Alfreda Wheeler of Barre, Vt., is spending a week's vacation with her parents, Mr. and Mrs. Wesley Wheeler.

Mr. and Mrs. Jesse Doyon and daughter of Farmington were week end guests of Mr. and Mrs. Wesley Wheeler.

Mr. and Mrs. Grant Maxson of Portland spent the week end with Mrs. Maxson's parents, Mr. and Mrs. G. N. Sanborn.

Mrs. A. W. Hulbert called on W. L. Chapman and daughter Sunday afternoon on her way home from spending the day with friends at Locke Mills.

Mrs. Sarah A. Gunther is visiting her sister at Middlebury for a few days before going to Milton, Mass., the first of next week.

A little Paul Revere arrived in town April 19th at the home of Mrs. Charles Bean. He is the son of Mr. and Mrs. Cleve Waterhouse.

W. H. Sears and family entertained a party of young people over the week end and holiday at their summer home on the side of Farwell Mountain.

Rev. and Mrs. L. A. Edwards went to Portland Tuesday, where Mr. Edwards performed the wedding ceremony of Miss Arline Pratt and Everett Messer.

Mrs. D. M. Forbes, who has been assisting with the care of her father, T. B. Burk, who has been very ill, returned to her home in Rumford, Thursday.

The grade schools of the village observed Patriots' Day Monday with appropriate exercises and special talks.

Mrs. R. R. Tibbets spoke before the eighth grade, Mrs. R. C. Dalzell the seventh, Mrs. Lyman Wheeler the sixth, and Rev. L. A. Edwards the fifth.

Guy Morgan is making extensive improvements on the filling station property on the West Bethel road near the overhead bridge. The cement foundation is in place for two motor-driven and two hand gasoline pumps, and the building will be moved west a short distance to be directly back of the new pump location.

While backing his car from the Morgan filling station in order to drive up Church Street, Dr. W. R. Chapman collided with the traffic signal at the junction of Railroad and Church Streets Monday morning. The signal was badly damaged and was repaired by Ray Crockett, while the car, a Lincoln sedan, suffered little from the smash.

The American Legion entertained at a meeting Monday evening members of the Oxford County Council from Buckfield, Dixfield, Rumford, South Paris, Norway and Oxford. Preceding the meeting members of the local post and their visitors, led by the Bugle Drum Corps of Rumford, marched through the streets. Following the meeting an oyster supper was enjoyed. Headmaster Crane of Gould Academy was the speaker of the evening.

Exports of merchandise from Maine last year dropped over \$3,000,000 in value as compared to 1930. This changes the State's ranking from 36th place among the states and territories to 39th place. Domestic exports from Maine last year were \$3,575,270, a drop of \$3,270,858 from 1930.

PAUL CROTEAU'S HOME AT WEST GREENWOOD BURNED

The home of Paul Croteau and family at West Greenwood was entirely destroyed by fire about three o'clock Sunday afternoon, together with all the furnishings and a large amount of groceries and provisions.

The shed burned first, being practically all gone when discovered by the family. Earlier in the day there was a chimney fire and it is thought that a spark from this blaze must have lodged in the shed.

This place was formerly occupied by John Kennagh and was purchased by Mr. Croteau a year or more ago. There was a small insurance.

BETHEL STORES OPEN WEDNESDAY AFTERNOONS

Following the new policy of the A. & P. stores in keeping open on Wednesday afternoons, the other grocery stores are doing the same, beginning this week. The same practice will be followed by some other stores, including Rowe, Butts, and Lyon.

FEELING GOOD THOUGH WEARING 1931 CLOTHES

How to feel good and still wear last year's spring clothes can be listed as one of the 1932 problems, according to Helen Spaulding, clothing specialist, who has given below some hints on how to feel better at least.

"New blouses go a long way toward enlivening a used suit, and blouses this year are being made of just about everything, which might include the skirt of a discarded dress, especially if the blouse were made with a cape or short sleeves.

"If you are lucky enough to have a blue suit among your assets, giving it a bright colored blouse and scarf, maybe one of those of checked gingham, ought to make you feel more cheerful.

"The fashions were never more favorable to the dress that's too short or that pulled out around the arm holes than right now. All these yokes must furnish at least one model that will fit your case, for that is the secret of good remodeling, to choose to do it so that the garments suit your individuality better than ever.

Some yokes could make you look broad and short, but if that's what you want to avoid, make them of material that doesn't contrast too sharply with the rest of the dress and choose those with pointed or U-shaped necklines and a lower line that forms a downward line on the dress, downward toward the center. Maybe you are using a skirt yoke, too. If making the hips look slender is a problem, again make the lines of the yoke point down and toward the middle.

"One other point about yokes, if you are using one to drop your dress length to the popular ten to twelve inches, remember that the yoke must come below the armhole.

"Some people have found that dresses dropped down with a deep yoke proved too narrow at the hips. A 'V' or diamond shaped piece set in on the underarm seam and carried down about eight inches below the waistline may be just what is needed. This should be in good proportion if its widest part is about one-third of its length. It might be cut from the discarded sleeves and it can be cut in either of two ways, with its middle line on a lengthwise or a crosswise thread of the goods or on the bias."

ROBERT W. FARWELL

The death of Robert W. Farwell, 33, occurred Wednesday morning at 4:45 at the Rumford Community Hospital following a short illness of pneumonia. Mr. Farwell, son of the late W. L. Farwell of Bethel, was born September 28, 1899, youngest of seven surviving children. He was educated in the schools of Bethel and attended Gould Academy for three years after which he was the proprietor of a garage in Bethel, coming from there to Rumford where he was employed in the Rumford garage. About five years ago he became proprietor of a garage on Granite street in Mexico where he has since been located. He was a member of the Masons and Knights of Pythias.

Mr. Farwell is survived by his mother, his wife, who was formerly Ruth Etheridge of Bethel, and two children, Priscilla, eight, and Robert Jr., aged five years; five sisters, Mrs. R. A. Sherwood of Salem, Mass.; Mrs. Ernest Pillsbury of Bangor; Mrs. Ernest Back of Bethel; Mrs. Chester Cummings of Hallowell; Mrs. Lena Wright of Bethel and one brother, Wallace Farwell of Lowell, Mass.

The funeral services will be held at the Methodist church in Bethel, Saturday afternoon at 2 P. M.

DAYLIGHT SAVING TIME HERE NEXT WEEK

It is generally agreed that Bethel village will adopt Daylight Saving time beginning next Sunday, April 24. This is the date selected for the change in the larger centers and it is fast time is to be followed locally this seems the proper time to make the change.

There seems to be little opposition to the plan, and the fact that the mills will make the change Monday morning, followed by the schools and Gould Academy, should make the adoption of a new schedule of time as simple as possible.

Some confusion may result from the railroads following standard time, but the best way is probably to set your timepieces ahead an hour Saturday night and forget all about it.

According to the latest advice however the local churches will operate on standard time next Sunday, so perhaps we should amend the above suggestion. The end most desired is to have the change as near 100% as possible that we may avoid the confusion that attended the change last year.

COULD PLAYS GORHAM, N. H. SATURDAY IN OPENING GAME OF THE BASEBALL SEASON

Saturday afternoon at two o'clock, Gould Academy will open its 1932 baseball season. Gorham, N. H. will furnish the opposition and although the visitors usually have a strong aggregation they are reputed to be somewhat weaker this year due to a heavy graduation of their last year's team.

The weather conditions have been almost impossible for baseball but the local boys have been availing themselves of every opportunity for practice. Either Quimby or Browne will start on the mound against the New Hampshire outfit, with Daniels behind the bat. Wilson Bartlett will be at first base, with Don Stanley, Morris Vail, and Roberts at second, short, and third respectively. Mark Hamlin will roam the left field, with either Quimby or Browne in center, while the right field garden is yet an unsettled question. Jim Stevens is making a strong bid for the position being a sure fly-catcher and a fair hitter. Green is also showing well for the outfield. He can cover more ground than Stevens but looks, at present, to be less sure at the bat. Other outfielders are Glover and Allen.

The opening game will start promptly at two o'clock Saturday. Admission this year will be reduced from 35c to 25c. It is hoped that a good crowd will be present at the opener.

On Wednesday, April 27 at 3:30 So Paris will invade Bethel bringing with them their Pine Tree League pitcher Pratt, who has been a Paris stand-by for the past three years. This will be the first Oxford County battle and will be a tough one for Gould. So Paris will be a hard outfit to beat with Pratt tossing them over in his usual style.

COMMERCIAL CONTEST

There will be a preliminary contest held in the Freshman room of the Academy building, Monday afternoon at four o'clock. The purpose of this contest is to select three members of our first-year typewriting class to represent the school in the County Contest at Norway, May 7.

This contest will be for fifteen minutes duration and will be governed by International Contest Rules. Parents and friends of the school are cordially invited to attend.

MOTHERS CLUB TO PRESENT "HITTY'S SERVICE FLAG" AT ODEON HALL TOMORROW EVENING

The Mothers Club will present the two act play, "Hitty's Service Flag," at Odeon Hall with the following cast of characters:

Mable Johnson, Helen Barr, Edna Peckham, Winifred Patten, Mildred Emerson, Eugenia Haselton, Stella Hays, Mabel Greenleaf, Stella Brown, Lettie Hall, Marion Winslow, Ruth Connor, Marjorie Winslow, Mildred Wentzel, Barbara Winslow, Arlene Greenleaf, Mrs. Easterbrook, Lillian Vail, Mrs. Irving Winslow, Myrtle Lapham, Mrs. Cobb, Flora Gibbs.

There will be specialties between the acts.

Auxiliary Members Attention

The next meeting of the American Legion Auxiliary to be held at the Legion Rooms April 28th will be Charles Rogers of Bethel; Mrs. Clara Abbott of South Paris; Mrs. P. J. Bennett of the Department of Maine, will be with us. A good attendance is hoped for.

MAINE'S RECREATIONAL POSSIBILITIES UNTOUCHED

"The one product no other state can hope to duplicate is the State of Maine," asserts former Governor Ralph O. Brewster in an article on "Marketing Maine," written for the Maine Publicity Bureau. His statement follows:

"The irresistible power of a right idea has been shown in the success of the Maine Publicity Bureau. Dedicated to the service of recreational interests of Maine with singleness of purpose the Bureau has continued true to its first love.

"Meanwhile our eyes have been opening to the ever broadening implications of recreational development. All the world joins in love of play. More and more leisure spells more and more play. This means a constantly expanding market for recreational Maine.

"A non-competitive product is the ambition of every manufacturer. In his respect Maine may justly claim to be unique.

"Without disparagement of other states or countries there is only one Maine if we may borrow the famous slogan of Skowhegan.

"More than a million customers each year vote for the delights of Maine. Why not two million or four million? It is simply a matter of salesmanship on well demonstrated lines.

"The more you spend the more you get. As a matter of fact that only tells half the story. Every added dollar increases the response in geometrical ratio and decreases the cost all up and down the line.

"It is our old friend mass production. It is the psychology of the crowd. All roads lead to Maine.

"The matter of fact figures of the last ten years at the Maine Publicity Bureau amply demonstrate that the point of diminishing returns from advertising dollars is still remote. Constantly increasing returns from each advertising dollar is still the rule. Every extra dollar does double duty.

"Old man sales resistance is down or his back calling for help and that is the time to sign up a few hundred extra prospects.

"Maine suddenly becomes the style. A line before a box office is an irresistible argument.

"Iraun W. Ricker always contended that Maine could easily entertain 150,000,000 visitors annually without jostling. He had it figured out on a per acre basis.

"Overproduction stagnates the markets for our potatoes, our corn, our lumber, our milk, our factories.

"The one product no other state can hope to duplicate is the State of Maine. Obsolescence and depreciation affect it not. There are no carrying charges. It is not perishable. Russian competition is negligible.

"Mankind needs it but knows it not. Let us tell the world for mutual advantage."

BEAR RIVER GRANGE MEETING HELD APRIL 9

Bear River Grange met in regular session Saturday evening, April 9th, at eight o'clock. W. M. Saunders in the chair was the pro tem appointing to fill vacant chairs as follows: Pomona, Gladys Godwin.

Grange opened in form and minutes of last meeting read. One candidate was instructed in the third and fourth degrees. Sister Godwin in charge of the table.

It was voted to have the annual Supper and Dance, Friday night, April 29. The second annual "Spelling Contest" for pupils of the Newry and Hallowell schools is to be Saturday evening, May 7th. It was also voted to contribute as usual to the "Good Will Cottage."

The following program on "The Grange and the Church" was given: Song, "Church in the Wilderness."

Grange Hall call each telling what the Grange can do for the Church.

Song, "God and Home." Grange Sisters answered to a roll call by telling what the church can do for the Grange.

Question for discussion: "Are there too many Rural Churches?" opened by L. E. Wight. It was decided that there were too many.

Song, "Blest Be the Tie that Binds." Surprise features by Sisters Bertha Dean and Addie Sanders.

Grange closed in form with 28 members and two visitors present. A picnic was enjoyed by all.

Next meeting will be Stunt night. There will be three prizes one for the most instructive and educational number, second for the best musical number, and third for the funniest number.

RECORD OF SNOWFALL FOR THE PAST WINTER

The figures below were given us by Fred I. Clark, who has kept a record of the snowfall in 20 storms during the past season. The total is 71 inches.

CHURCH ACTIVITIES

FIRST CONGREGATIONAL CHURCH

L. A. Edwards, Pastor
Standard Time
9:30 Church School. Miss Ida Packard Superintendent.

10:45 Morning Worship. Rev. Frederick Smith, superintendent of the Maine Civic League, will be the speaker.

There is no man in Maine who is better qualified to speak upon that vital issue, Prohibition, than Mr. Smith, and we sincerely hope that he will be greeted by a large audience on Sunday morning.

We are seeing plenty in the West Press and some are losing faith in the effectiveness of Prohibition. Why not hear something from the other side, by one who speaks with the authority of knowledge?

6:30. Comrades of the Way. Subject, "In What Respects is a Christian Different from a Non-Christian?" Reginald Roberts.

These services will be on standard time. The matter of future time will be settled Sunday morning.

BETHEL M. E. CHURCH

Rev. R. C. Dalzell, Minister
Standard Time
9:45 Sunday School. Superintendent, Evans Wilson.

10:45 Morning Worship. Organization Sunday. Topic, "We are all one body in Christ. The different departments as follows: Sunday School, Epworth League, Ladies' Aid, W. F. M. S., Mothers' Club and the trustees are each invited to attend in a body. A stat of honor will be extended to the presidents of these departments on the platform.

6:30 Epworth League. Topic, Perfecting Organization. Leader, Wendell Gibbs.

7:30 Installation of Epworth League officers, followed by short sermon from the Pastor. Topic, "Youth's Contribution to the Church."

7:30 Tuesday evening, Prayer service.

Thursday afternoon the Ladies' Aid will meet with Mrs. H. I. Bean. Roll call, facts about New York. Paper on "My Trip to New York" by Mrs. Millie Clark.

CHRISTIAN SCIENCE SOCIETY

Chapman Street
Sunday School at 10 o'clock
Services Sunday morning at 10:45
Subject of the lesson sermon, Prohibition after death.

Wednesday testimonial meeting at 7:30 p. m.

CORN ON THE COB IS FROSTED BY NEW PROCESS

Stores in New England, New York and Pennsylvania now handling quick-frozen food will be selling additional at quick frozen products such as parsnips, carrots, sliced apples and corn on the cob within the next six months, according to Clarence Birdseye, inventor of the new quick freezing process.

Corn on the cob will be in season the year round and is expected to prove one of the most salable of the new quick frozen vegetables. It is sold in packages, each containing six ears of golden hantam corn.

HERE AND THERE IN MAINE

The Education Department of Maine says that Maine and Indiana are tied at 89.4, the highest public attendance rating in the United States.

The State Police made 123 arrests in March.

The Department of Health states that there were reported 1,987 births, and 928 deaths were recorded for February.

The Maine Manufacturers have given 1,000 pairs of shoes and 100 pairs of rubber gaiters to the needy in the St. John river district in Maine.

Henry L. Fowler, superintendent of the State School for Boys, sent his resignation to Augusta. Fowler gave no reason for his resignation.

John Person of Bangor was struck by a Bangor & Aroostook freight train April 19, and died a few hours later in the hospital.

The U. S. Navy dirigible Los Angeles passed over Lewiston and Auburn Tuesday at 6 o'clock. The ship hovered over the two cities for about 20 minutes, and then headed in the general direction of Mt. Washington.

The ship was on a 24-hour cruise over the New England States, starting from Lakehurst, N. J.

The Secretary of State is preparing initiative petitions for Maine State Grange, calling for two and one-half mill tax on intangible property and a two mill tax on electric power companies gross revenue.

Science has announced that on Aug. 31 there will be a total eclipse of the sun for 99 seconds. The Northwestern University tests will be made at Fryburg, Me., where forecasts indicate the most favorable conditions for observing the eclipse.

According to a survey completed by the National Education Association, Maine offers greater educational opportunities than in the country in general. Educational expenditures and value of school property are lower in Maine than in the country as a whole.

A request has been made by the Governor that schools, representatives of the church and other organizations observe the nation-wide "Be Kind to Animals Anniversary," April 17 to 23.

Legally Maine's sardine packing industry opened April 15, though none of the canneries have taken advantage of the opening. It is thought the reason for the plants' failure to commence work is due to business conditions and foreign competition.

The meeting of the Principals' Association will be held at Augusta May 6. The meeting this year is to be held only one day instead of two, as in previous years.

The Division of Institutions reported that the number of inmates in the State institutions April 1st was 4,111. The institutions included the State prison, reformatories, hospital and sanatoriums. There were 19 persons on the waiting list for the Penitentiary State School and 19 for the reformatory sanatoriums.

One woman Miss Irene C. Tetrault, of Augusta, was among the 11 applicants for pharmacy certification, who took the State pharmacy examinations at the State House, April 17.

James Mallow, 39, of Berlin, N. H., and Fred Maxwell, 22, of Lewiston, Me., were killed April 18 when their airplane piloted by Mallow with Maxwell as passenger, crashed up on the back of the Androscoggin river at Livermore Falls.

A second airplane crash occurred at Old Orchard April 18, involving Ira Snow, 23, of Pine Point, and Wendell P. Carney, 21, of South Paris.

Signs of Worms are: Constipation, deranged stomach, sickish upper lip, offensive breath, hard and full stomach with pains, pale face, eyes heavy, short dry cough, grinding of the teeth, etc.

Mrs. E. W. Stephan, 31 Kennerly Road, Dorchester, Mass., wrote: "My little girl's freedom from children's diseases, colds, constipation, etc., I attribute in a large measure to the use of Dr. True's Elixir."

Dr. True's Elixir

Laxative Worm Expeller
A pure herb medicine, not a harsh stimulant; natural relief from constipation.
Successfully Used for 82 Years

County News

HANOVER

Mr. and Mrs. O. P. Russell carried Mr. and Mrs. Coady to Bangor Sunday, after having spent the winter in town.

Mrs. Lucy Dyke is spending a few days at Alwyn Elliott's.

Miss Eva Russell is spending a short time with her sister, Miss Blanche Russell.

Miss Eva Hayford and sister, Mrs. Susie Thomas, motored to Portland Sunday to attend Ladies' Day of the 13 Class.

A. H. Saunders left Saturday on a business trip to Boston, Baltimore, Washington, D. C., and New York City.

Mrs. Rita Smith is a little more comfortable.

Mr. and Mrs. Allen Richardson celebrated their golden wedding anniversary one day last week. Dinner was served at Union Hall to a family gathering of seventeen.

Mrs. Ada Dyer and Mrs. Henry Foster of Camden were guests of their parents, Mr. and Mrs. Allen Richardson, a few days.

Dan McPherson has moved his family to Newry Corner, to the home recently purchased of M. E. Arsonault.

Several are planning to attend the Annual Sugar Eat at Newry Corner April 29th.

C. P. Saunders and family attended the Circle Supper at Lon Wright's, Newry, Saturday evening.

Albany—Waterford

Wiley McKee, 84, passed away Friday at the C. M. G. Hospital in Lewiston where he was taken the previous week. He had been in poor health for several years. He is survived by his widow, Mrs. Flora McKee. He will be missed by his neighbors and friends.

Mrs. Sarah Brown entertained ten at dinner Sunday. They were Mr. and Mrs. Henry Bennett and three children of Bethel, and Mr. and Mrs. Winfield McAllister and three children. Mrs. Brown is planning to move to her home in East Stoneham this week.

Edward Holt of Norway spent the week end and holiday with his grandparents, Mr. and Mrs. Merritt Sawin. Roy Andrews, who is working at Slide Inn, visited his parents, Mr. and Mrs. L. J. Andrews, Sunday.

Myron Lord and F. R. McAllister sawed wood Thursday for Ernest Brown.

Mr. and Mrs. Ray Andrews are receiving congratulations on the birth of a daughter, April 13th, at the home of her parents, Mr. and Mrs. W. A. Hersey.

Will Grover of Loyall was in this place Saturday.

Ernest and George Westworth of Norway were at Ernest Brown's Saturday.

Wallace A. Hopley of Bidgton, the Hawleigh dealer, was through this vicinity Saturday.

Students from Norway High School arrived home Friday for a short vacation until Wednesday, April 20.

Freeman McKee and Wilbur McAllister spent Saturday at D. L. McAllister's.

Mrs. Alta Meserve and daughters have gone to Lovell where the children will attend school. Mr. Meserve will remain on their farm at Albany for a while.

EAST BETHEL

Deferred

Miss Eva Bartlett has returned to her school at Gorham Normal.

Miss Jennie Rich has gone to her home in Berlin, N. H., after spending the fall and winter with Mrs. A. M. Jean.

Clint Littlefield is papering for Robert Hastings.

Mrs. Marjorie Millings has finished work at Lockes Mills.

SOUTH WOODSTOCK

Mrs. Iva Andrews has sold her house and lot at Trap Corner in Paris to D. H. Perkins of North Paris, who is now erecting a filling station on the vacant lot.

Gerald Davis worked with his team April 13, 14 and 15 on road work for Nelson Perham, road commissioner.

Quimby Perham has finished sawing his huge wood pile, some 50 cords, for next winter's consumption.

Harry Silver helped Edwin Perham on the wood sawing, finishing the job Monday.

Albert Felt is gaining at this writing from his severe illness, but is still confined to his room.

Mr. and Mrs. Wendall Roberts and Flossie are staying indefinitely at her father's, A. N. Felt's, during the scarlet fever quarantine at Locke Mills.

The body of Asa Harriman of Nashua, N. H., who died from pneumonia, was brought to West Paris Wednesday and placed in the tomb there, a funeral to follow later when burial will be in the West Paris cemetery.

Mr. and Mrs. Ralph Dean and Elsie and Mr. and Mrs. Ellis Davis attended the Etcher-Sawyer wedding in Lewiston on Saturday evening, April 16.

John Cox, Charles Swinton and Melford Perham are working on the road for Nelson Perham.

The mail carrier reports the roads in back sections of the town badly washed, especially the culverts being in bad shape.

Mrs. Ned Herrick has been very ill at her home here. Her many friends are anxious to hear of her improvement soon.

Miss Marion Fields of West Paris was a visitor of Miss Florence Benson on Monday. Marion reports her grandmother, Martha Cash, as being comfortable.

Benny Cash was in town Monday.

Andrew Rose has the job of splitting up the big woodpile at A. M. Andrews, also that of Harland Andrews.

Robert Farrington spent the week end at the home of his fiancée, Miss Harriett Abbott of Bryant Pond. "Bob" has a good job on the regular pay roll of J. W. Andrews and Son and is living here keeping bachelor's hall with his father, James P. Farrington.

Arthur Hart is cutting cordwood for G. W. Q. Perham at Outlook Farm.

Yes, Spring has surely arrived. Women as well as men are out for sales and demonstrations of all kinds of household "necessities." A Mrs. Gotchell, also a Mrs. Stanley were recently in the place on such work, both claiming residence in our sister towns.

Just a word. I wonder if some of the thoughtless boys in town realize that the law holds good on the destruction of our friends, the birds.

Kelp-o-Vita

for HEALTH, YOUTH and VIGOR

Men, women and children find Kelp-O-Vita a safe and efficient treatment for debility, loss of vital powers and glandular impairment. YOU CAN BE OLD AT FORTY OR YOUNG AT SIXTY. QUIT DYING BEFORE YOUR TIME. Kelp-O-Vita is a mineralized vegetable, easy and pleasant to take, not habit-forming. RICH in Vitamins and Organic Salts. Kelp-O-Vita is a REVITALIZER, a REHABILITATOR, a REJUVENATOR, an INVIGORATOR and a RECONSTRUCTIVE. INCREASES VITALITY and gives PEP, VIM and VIGOR. Kelp-O-Vita is for VITALITY, the last word in modern science. Send this ad. with your name, address and 25c in stamps or coin for one week's sample treatment. Address Kelp-O-Vita Laboratories, 1046 Venice Blvd., Los Angeles, Calif. Dept. AB-15.

Sad, to recall, the report of a shot bird falling to the ground, set us thinking. There were two pairs of birds. Now only three remain after coming thousands of miles to make us glad.

Mr. and Mrs. Gerald Davis were in Norway shopping Saturday, April 16. While there they interviewed his uncle, Earl Felt, and family and found him suffering from the after effects of a bad grip cold.

A birthday party was celebrated at the Austin-Brown residence at Bryant Pond on Sunday, April 17 in honor of the double birthdays of Leland Austin and his daughter, Bessie Edith. Mr. Austin's birthday was April 20 and the little daughter on April 15.

SUNDAY RIVER

Bernard Harrington of Greenwood was a business visitor in town one day last week.

Harold Howe and son from Norway loaded a car with boards from the vicinity Saturday.

Lyman Lane of Upton and Miss Eva Nowlin were visitors in Rumford Saturday.

Harry Chase and F. B. Martinson of Rumford Point were in the vicinity on business Saturday.

Mrs. R. L. Foster was at Rumford Point Friday on account of the illness of Mrs. Harry Chase.

Parker Conner of Bethel was at W. Reynolds' Thursday, fixing the Frigidaire plant.

Miss Irene Foster was a visitor of Miss Hilda Fleet as a supper guest Friday night.

Miss Irene Foster spent the week end with Mrs. Roger Foster.

Ivan Stowe and R. L. Foster have gone to Ketchum for a few days.

C. O. Demeritt returned to Bethel Wednesday.

THE CITIZEN-PRINTERS

SOUTH ALBANY

ROUND MOUNTAIN GRANGE

Round Mountain Grange met in regular session for an all day meeting, April 15. At noon a fine baked bean dinner was served in the dining hall by the Sisters. At 1:30 p. m., the Worthy Master called to order and the usual routine business was carried out. Resolutions on the death of Bro. J. S. Rich were read and accepted. The following literary program was given:

Song, "Battle Hymn of the Republic," Grange

Roll Call: An Event of American History

Inauguration of Washington, 1789, Edith Stearns

Question: "Has the Radio Added to Farm Life?" Opened by Bro. Hugh Stearns, followed by others.

Reading, "No Red Without the White and Blue," Alta Meserve

Closing Song, "Tenting on the Old Camp Ground,"

Grange closed in form, all members pronouncing it a very enjoyable day. One visitor was present from Crystal Spring Grange.

Ivan Kimball and Arthur Wardwell were Sunday callers at Preston Flint's.

Miss Winola Kimball entertained her friend, Miss Frances Blackqure, over the week end and holiday.

Mr. Abbott from Upton Hill was a dinner guest at J. A. Kimball's Friday.

The many friends of George Briggs are very sorry to hear of his illness. All are hoping to hear good news soon.

Frederic Scribner enjoyed the week end and holiday at his home.

The fire alarm was rung in over the Albany telephone lines Saturday morning for a fire at Forrest Church-ill's. With the timely help of several men it was soon under control and no serious damage was done.

Fred Taylor is stopping at Robert Hill's for a time.

UPTON

The Grange held a whist party at the hall Saturday, April 16, with four tables in play.

Mrs. Wilfred Richard and her three daughters are visiting her brother and family in Rumford.

Mrs. Mertie Henderson, who has been spending the winter with her daughter in Bethel, is working for Mrs. James Barnett.

The roads to Errol and Bethel are some rough but easily passable. They are growing better all the time.

H. W. Whitney has been splitting his wood with his new splitting machine.

Mrs. Elva Doughty of South Paris is visiting at the Abbott House.

Donald Stone of Exeter, N. H., has arrived at the Lake House, where he will work this summer.

Middle Intervale, Bethel

Mrs. Beagle Soule of Portland spent the week end with her father, Ofsian Stanley.

Mrs. Susan Capen returned home Saturday after having employment at Martha Bartlett's during the winter.

Miss Ruth Buck is spending her vacation with her mother, Mrs. Orlando Buck.

Mrs. Irne Foster of Dorchester and Miss Alice Capen spent Tuesday with Mrs. Fannie Carter.

Mrs. L. U. Bartlett and son Roger was in Lewiston one day last week.

Stephen Abbott who had the misfortune of breaking a blood vessel in his leg is slowly improving.

Richard Stevens entertained the neighborhood boys at his sap house last Friday evening.

Misses Minnie and Alice Capen called on their mother Mrs. Mary Capen last Friday.

Charles Swan is quite ill at this writing.

Mary Stanley was in Portland Saturday.

TWO-MINUTE SERMON

by REV. GEORGE HENRY

HOW OLD ARE YOU

The question is often asked: "How old should one be before becoming a member of the church?" This question was put to the preacher during a religious revival. My answer: "There is no age limit, maximum or minimum. To urge a child of tender years to unite with the church may be unwise, but it is more than unwise to put a straw in the way of a child who has been properly taught and who desires church membership. As to the adult, the question is not, 'how old should one be?' but 'how old are you?' Today, if you will hear His voice, harden not your hearts. Now is the accepted time, now is the day of salvation." "Whosoever will may come." The invitation is yours today. Tomorrow may be too late.

GREENWOOD CITY

Mrs. Fred Cole of Portland has been visiting friends in town this week.

Mr. and Mrs. Lauri Tamminen of Yarmouth were at home Sunday.

Mr. and Mrs. Roy Morgan are receiving congratulations on the birth of a son, Owen Millard.

Mrs. A. M. Whitman and family and Galen Curtis were in Lewiston Sunday where they visited Mrs. Whitman's nephew at the hospital.

The roads, which have been almost impassable in places, have much improved in the past week.

The students of West Paris High School have returned to their studies after a few days vacation, because of scarlet fever.

Mrs. Roland Hayes and children, Erwin and Ardell, visited relatives at West Paris Saturday.

FARMERS NOT ASKED TO REDUCE ACREAGE WHEN GETTING LOANS

A telegram received at the State University in Orono from Representative Donald F. Shaw, says, "Had final conference this morning, March 28, with Secretary Hyde and Director Warburton regarding loans. Was advised that applicants will not be required to promise to reduce acreage. Also that an amount of \$400 each individual applicant would apply to all applicants over the country regardless of crop they are going to raise. Also that no specific allotment would be made to any state. From what information I have obtained during the last few days I do not think any of our farmers whose applications have been duly approved will have the slightest trouble in obtaining this loan."

From C. W. Warburton of the Washington Office of the loan committee comes this message. "Loan applications recommended by county committees usually approved for full amount if within regulations. Payment in lump sum or installments dependent on individual conditions. If borrower has immediate need of full amount of loan to purchase fertilizer or other items full payment will be made."

FEEDING THE DAIRY COW IN 1932

by P. A. Campbell,
Eastern States Farmers' Exchange
Springfield, Massachusetts

In these rather trying times, the man who feeds the cows, if he does not stop to figure, thinks that by reducing the grain part of the ration or entirely eliminating it, will increase his net returns. It is true that when the price of milk to the producer changes it usually calls for some readjustment in the grain feeding. The dairyman who is feeding his cows individually and watching them so that he is getting the greatest possible spread between the cost of the grain he feeds them and the amount the milk sells for, is not only making the most profit but is selling his home-grown roughages at the highest price. A cow fed an amount of grain to supplement the roughages so that she gives the greatest possible margin may be said to be fed to the point of economical production. The point of economical production may be explained as up to which point in the feed there has been increasing net returns for each increase in grain and beyond which there will be diminishing net returns if the grain feed is increased further. This method taxes the skill of the feeder but it will pay well for the time devoted to it. If this method is fully followed, it will probably decrease the grain ration of some; it may raise others; it will more nearly meet the cow's nutritive requirements as it correlates quite closely with the feeding standards. Every feeder should realize that the maintenance requirements of a cow first have to be met and that successful and economical production are based on the feed which is fed in excess of the maintenance requirements.

"Will you be struggling along in the same old job and at the same old salary this time next year?" asks a thrilling circular issued a while ago by the International Correspondence Schools. To this a columnist in a daily newspaper makes haste to reply, "Ye gods, we hope so."

HISTORY AND CONTROL OF WHITE PINE BLISTER RUST IN MAINE

by W. O. Frost
Blister Rust Agent
Maine Forest Service

"Spores, or seeds of the white pine blister rust, cannot travel in the air more than 900 feet and survive. Hence if all currant and gooseberry bushes are destroyed within this distance, protection to the white pine is assured."

"The disease requires both white pine and a currant or gooseberry plant to complete its life cycle; it cannot spread from one pine to another, but must pass part of its life on a currant or gooseberry bush and from there go to a white pine. The weak part of its life cycle comes in passing from the gooseberry or currant to the white pine."

"White pine blister rust was first discovered in this country in 1905, and first found in Maine in 1916. Within a comparatively few years it has spread over the entire State, causing great damage to white pine reproduction and white pine plantations; infection running as high as 95 per cent, practically a total loss, being found in some cases."

"Wherever control measures are practiced the disease is checked. However, the work must be continued as there remains thousands of acres of young pine needing protection. Owners of white pine must see to it that this disease is held in check if Maine's standing as a great white pine producer is to be maintained, otherwise, blister rust may cause our future supply of white pine to be of a minor important source of revenue."

BIRDS HELP FARMERS

Birds may help themselves to a choice fruit or vegetable sometimes, but they help the farmer in turn. Protection of birds should be almost instinctive on the part of the farmer, says a Bureau of Biological Survey bulletin, "Usefulness of Birds on the Farm." When one kind of insect becomes so numerous in a region as to threaten the wholesale destruction of vegetation, birds, as a rule, congregate there and live largely on the insects. Not only that, but the everyday services of birds in consuming insects of all kinds and holding back the threatening tide of insect life, says the bulletin, are probably of even greater significance.—Pathfinder

CORN BORER PARASITES

Farmers whose corn yield has been hit by the devastating work of the corn borer can hope, for some measure of relief. Natural enemies of this European pest are being introduced in increasing numbers into the United States. In 1931 approximately 371,000 imported corn borer parasites were liberated in infested areas by entomologists of the Department of Agriculture. In the past 10 years more than 4,500,000 of these parasites have been liberated. Twelve of the 20 different species liberated have been recovered in the field indicating that they are becoming established.—The Pathfinder

AN EGG MARKETING PROGRAM

To assure that local eggs receive proper recognition for freshness and quality, it is necessary for poultrymen to devote some thought and energy to pushing their sale in the most effective manner. There seems to be three essential points in marketing eggs to the best advantage:

- 1 High quality eggs, carefully graded, dependable and guaranteed.
- 2 Attractive, dignified cartons, properly identifying the contents with the producer or region of production.
- 3 Advertising to acquaint the consuming public with what constitutes real egg quality and where such eggs may be purchased.

Quality in eggs is almost synonymous with freshness. Deterioration may be greatly lessened if they are kept in a clean, cool place free from objectionable odors which eggs readily absorb. All fresh eggs are not of the best quality. Hence, when sold directly to consumers or to retailers they ought to be candled in order to remove bloody eggs, meat-spots, and those having watery whites. To the consumer, size, uniformity and shell texture are also marks of quality. Hence the need of some grading for these factors.

Attractive packing in one dozen size cartons is essential in retail selling. For attractiveness, firmness of package, convenience in packing in regular egg cases as well as for keeping them in the consumer's refrigerator the 2x6 egg cartons are preferable to the 3x4 egg size and shape. These cartons are most attractive when rather plain and dignified in appearance. For brown eggs Manila or strawboard color fillers are best, but for white eggs a blue lining makes a more pleasing contrast. The producer's name of farm name may be printed upon the cover. An attractive label should seal the package and guarantee the contents.

To a degree, eggs of quality packed as described, will advertise themselves; and yet there are many consumers who do not know the factors which really constitute egg quality. It is good business for poultrymen to enlighten them when making sales and by advertising. Eggs are an exceptional food deserving of greater recognition and appreciation.—Now England Homestead.

Morning Action of the Bowels

The commonest ailment of the American people, and the one that causes the most serious sickness is constipation. While many remedies are recommended you may be absolutely sure that this old-fashioned remedy, "L. F." Atwood's Medicine, taken in small doses, and continued for several weeks, will correct this slow bowel action. 50c for 60 doses everywhere.

Ice-Bound Steamer Gets Food From Plane

An aerial view of the steamer Fellow-Craft trapped in the ice-locked Lake Erie, off Pelee Island. The 21 members of the crew are shown waving cheerfully to the plane after 1,000 pounds of food had been dropped to them. The men, having received the food, were not in distress but could not be reached by vessels.

TRADITIONAL FARMER'S TABLE QUESTIONED BY DOVER WOMAN

Mrs. D. B. Smith, East Dover, Piscataquis County, believes that the traditional well laden farmer's table has had some ill effects along with those of merit. In speaking recently over the radio concerning homemaking projects sponsored by the Extension Service, she said in part:

"The farmer's table in the past has been heavily laden with bread, potatoes, fresh or cured pork and often with heavy desserts. When spring came our strength was low, due largely to an unbalanced diet. Vegetables were limited. Quite often we did not store or dry as many as might have been available had we planned a good garden. The Extension Service has taught us the value of good garden and how to properly can and store the surplus of vegetables that would meet the health needs of the family."

"We know, now, that we should have other vegetables in addition to potatoes on the table regularly. These vegetables contain vitamins and minerals which are necessary for the best development of bones and teeth. A special effort has been made through local groups to bring this information to the attention of mothers of young children so that the children early in life will derive the most benefit."

BOY SCOUT NOTES

At the regular meeting of the local Boy Scout troop at the Legion Rooms Monday evening Scoutmaster Bean gave a very interesting talk and several examples showing the spirit of patriotism.

Assistant Scoutmaster Van being absent no tests were passed.

Magalloway and Vicinity

A public school party was given in the Magalloway Town Hall, Saturday evening, April 16, for the benefit of the Magalloway Union Church. Nine tables were in play. Lunch was served. Prizes were awarded. First, Elton Littlehale; second, Winnie Littlehale; third, Dorothea McLean, second, Eva Hickey. Dancing followed.

Mr. and Mrs. Peter Littlehale, Lawrence and Werner Littlehale went to Lewiston Friday morning to see Mrs. Josephine Littlehale who is very ill. Several of the R. of P.'s attended the burial of Colman Harper at Bethel, N. H. Wednesday afternoon, April 13. Perry Hart received his second rank in the R. of P. at Bethel, N. H. Saturday evening, April 16. Clinton Bennett has purchased a new horse. Elton Littlehale has purchased a new Chevrolet truck.

Typewriter Doctor

By RUBY DOUGLAS

(By the author of "The Typewriter Doctor" in the "The Citizen" of 1931)

THIS cashier of the Brookville bank looked up from his desk as Sylvia, his competent little stenographer, entered his office humming gaily.

"Why the birth on Monday morning, Miss Sylvia?" he asked.

"The old, old reason—joy in having created something!" she told him.

"Tell me—let me be joyful, too," persisted the cashier.

He had known Sylvia since her childhood. There was a friendly, family acquaintance as well as a business association.

"I will—but you won't like it," Sylvia laughed.

"Oh—conceived the idea of getting married, I suppose."

Sylvia raised her hands in protest. "Not at all. But the effect on you will be just the same. I am going into business for myself."

The cashier listened while the girl unfolded her plan. The idea had come to her on Saturday morning like a flash of lightning from the unknown spaces. She had recognized it at once as an inspiration, and all through the weekend she had been turning it over in her mind until now it was a concrete plan all formulated and ready to put into action.

"Then you'll be a typewriter doctor, I gather," said the cashier when she had finished her outline.

"Yes—that's an attractive way to call it. There is no one in town who can mend a machine. You know yourself what a nuisance it is when the typewriter here in the office is out of order. We have to send to the city and not only pay the man's expenses but wait till he finds it convenient."

"Oh, I think you have hit upon a splendid idea. I am of course a little late to you, but we can't expect a girl with your ability and ambition to go on working for some one else at perhaps twenty dollars a week. Go to it, Miss Sylvia, and we will give you all the support we can."

Thus Sylvia severed her connections with the Brookville bank but she took with her all the good will of the officers and employees who, one and all, promised to help her to get launched in her new venture.

She found a dilapidated office on the main street and called herself a "Typewriter Doctor." She had a native mechanical sense and more than a little practical business ability.

It was not long before Sylvia was very busy, and she had found it necessary to make a few trips to the city in order to learn from the makers of various machines a number of intricate little peculiarities of their own typewriters. But she was quick and determined to succeed. Nothing seemed too difficult. She was happy and busy and she was experiencing the thrill that comes with achievement.

One morning a young man appeared in her office.

"Good morning," she said cheerily. The visitor explained that he was a writer and that he had been on a farm outside the limits of the city. His typewriter had become very badly in need of parts and repairs while he was in the middle of some work for a weekly publication. He asked whether he might bring in his machine and perhaps rest it for a few days. That was his problem.

Sylvia assured him that that was her work, and she had several machines on hand that she could let him choose from. For by this time she had not only gone into the business of renting typewriters but she had acquired the agency of a neat little portable machine and was making handsome commissions on it.

If the young man recognized another finger of fate pointing the way to her pathway she did not admit it. She confessed to herself that she was glad Mr. Rob Saunders would have to return for his machine. She liked him.

In a day or two, Rob Saunders appeared again. He was buoyantly happy.

"You are a mascot as well as a good typewriter doctor, Miss Bates," he said.

"How do you know?" asked Sylvia, for his machine was not ready.

"I have told the story I wrote on the rented machine for more than a third of a year of what I have ever received before from the same people," he told her enthusiastically. "Now I can well afford to get the parts."

He remained in the little office longer than was wise, but Sylvia kept on working. He was lost in admiration of the deft, easy way in which she went about mending machines, a pleasure that was, cleaning machine.

It became a habit watching her. "Watch her perhaps doctor, Miss Sylvia," he asked her one day after many weeks.

"I might, if it needed it," admitted Sylvia.

"I think if you would—we could make a success together," Rob said better than he talked.

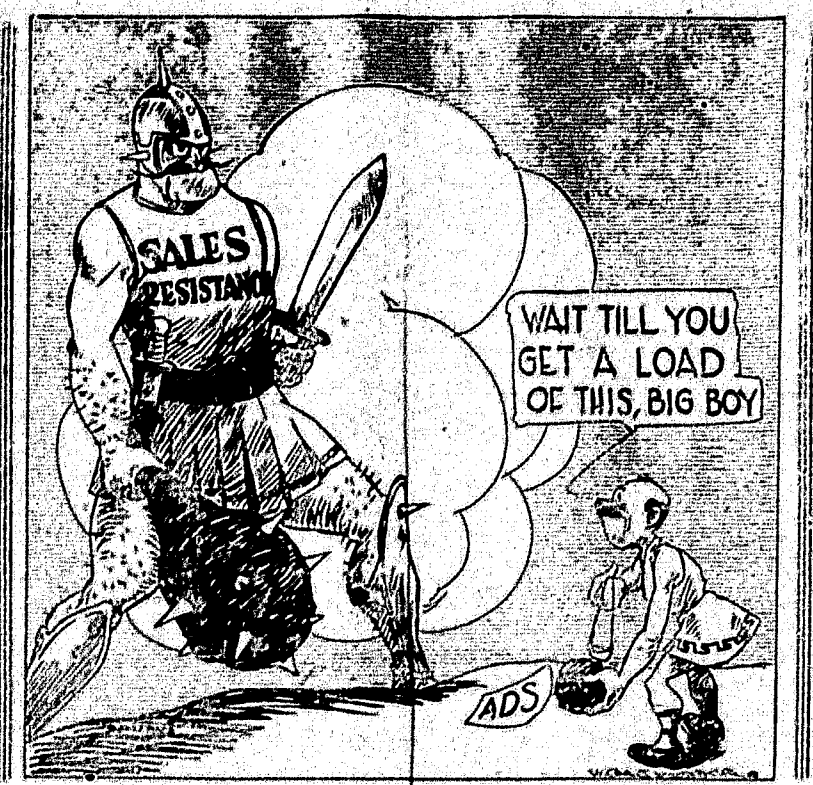

But Sylvia managed to understand. And her response was all that he had hoped for.

"And, besides, the doctor needs a partner," she told him afterwards.

Fame as a Penalty

"Fame," said Mr. H. H. the sage of Chintown, "is a penalty as well as a reward, since it immortalizes a great man's errors no less than his achievements."—Washington Star.

The Little Fellow Didn't Sit Down and Moan

D. S. BROOKS LETTER

Bethel, Maine
April 21, 1932

To the Citizen family,
Dear Members:

I wish that I might step into each of your homes for a moment to speak a cheery word; and, with a fragrant bouquet of trailing arbutus, extend to you a glad hand of fellowship. However, we are all God's dear children; and it is up to us to inspire with courage and faith the human race. Do you realize that—

"It takes so little to make us sad, Just a lightning word or a doubting smile."

Just a scornful smile on some lips held dear;

And our footsteps lag, though the goal seemed near,

And we lose the courage and hope we had—

So little it takes to make us sad.

"It takes so little to make us glad, Just a cheering clasp of a friendly hand."

Just a word from one who can understand,

And we lose the doubt and the fear we had—

So little it takes to make us glad.

There are some of "The Citizen Family," yet, who have not written us a friendly line, but we do not hold that against you. You are deserving of all the sunshine that we can pour upon you. You may consider us as a pastor, emeritus;—not of any particular group, but of you all. The greatest of all Methodist preachers, John Wesley, exclaimed that, "The World is my parish." Do you know, feeling and an earnest desire to be the servant of all who is taking a broad and noble outlook on life. One of the influences that inspired Wesley to become such a power for good in the world radiated from the consistent life and teachings of his Godly mother.

During those early days of my own boyhood, covering five and one half years on the old Livermore and Hartford farms where my father was pastor—many things happened which I hope to relate in future letters during the year, that may be interesting, especially to our youthful readers. For the time being, I shall pass over much of this character, and only mention a circumstance here and there up to the time of my starting out in life for myself.

One or two of the circumstances occurred in the year 1892, that indelibly fixed themselves on my mind. We have all seen the flickering streamers reflected onto the bosom of the sky by what is termed the Northern Lights, so many times that we think little about the matter after the phenomena have ceased. But, my parents and I were returning home from a Sunday night service in the heart of the winter when suddenly there appeared a most thrilling sight of those fearful "tongues of fire," stretching across the whole sky. Nothing like it has been witnessed for more than forty years. All of the cardinal colors of a perfect rainbow were present and were flashing and darting, interchangeably;—a most frightful spectacle. The whole village was astir! In their excitement, some were crying and exclaiming that the world was coming to an end that night. This fever of excitement continued for about three hours before the fiery vision disappeared. The earth seemed to be lighted with a brilliancy more dazzling than any pungent rays of summer sun.

The other eventful recollection that I have of that year took place in the summer. A beautifully clear and balmy Sabbath forenoon suddenly was changed to clouds and the dearest cyclone that has been known to strike the state of Maine. Tall and stately

trees began to tremble as if jarred by an earthquake; the topmost branches of slender growth were instantly awaying to and fro—dipping to the ground—and the trunks were snapping and breaking. It was all with the speed of electricity;—doing its worst! The giant wind seemed to move in a narrow and direct line, but, strange to say, outside of its swath, the air remained moderately calm. The monster moved down and overturned trees of a century, as easily as the "gentle zephyrs" sway the daisies and interludes in June. The Hartford congregation were assembled in Sunday School study prior to the preaching service. My father had not arrived when it all happened, and the sun again was shining clear and warm. That church edifice was in the range of the tempest and the roof of the building was lifted, as though hands had plucked it up, and carried it into the pasture beyond. The people below in the pews were unhurt although the building was terribly shaken. This church was soon repaired with a new roof and put into splendid condition. I will tell you more of what wonderful times took place in this community in a later writing. When this happened forty years ago, you older men and women had the strength and vitality of the "stately tree,"—the giant of the forest. But the storms of life have been sweeping over you, and you are not as strong to endure the hardships as in your youth. With others of your friends who are still more advanced in years, even little breezes now cause you to tremble and step heavily. Soon you must lie down to rest, leaving others to carry on the world's work where you left off. It is, to use the simile of the tree, blessed to have our branches to the sunset, to face the western sky with a strong faith in God, and an overflow of sunshine for the world. We are all on the way home, and multitudes are traveling with us to the end of the journey. We see what the poet saw when he sang:

"I saw them come over the water, I saw them go down through the land, Some lonely on feet that were weary, some smiling, with hand clasped in hand;

"And where are you going?" I questioned; O what do they see where they roam?

That their eyes seem to dwell on a vision? "Home, home—they are traveling home!"

"I saw them come out of the cities, I saw them go over the hills, I saw little children, old people, smart sons of the forge and the mill;

The young with the feet of light dancing; the old with a yearning for rest;

"They are traveling home," said the shadow; "lie down on the dear mother-bread!"

"I saw them in shadow and sunshine, I saw them at dawn and at night, Go on and go on, and go over the road to the hill of delight;

Divine than anything human the glow on their faces who roam?"

"They are traveling home," cried the shadow; "home, home—they are traveling home!"

"I saw them come out of the cities, I saw them go over the hills, I saw little children, old people, smart sons of the forge and the mill;

The young with the feet of light dancing; the old with a yearning for rest;

"They are traveling home," said the shadow; "lie down on the dear mother-bread!"

"I saw them in shadow and sunshine, I saw them at dawn and at night, Go on and go on, and go over the road to the hill of delight;

Divine than anything human the glow on their faces who roam?"

"They are traveling home," cried the shadow; "home, home—they are traveling home!"

"I saw them come out of the cities, I saw them go over the hills, I saw little children, old people, smart sons of the forge and the mill;

The young with the feet of light dancing; the old with a yearning for rest;

"They are traveling home," said the shadow; "lie down on the dear mother-bread!"

"They are traveling home," said the shadow; "lie down on the dear mother-bread!"

"I saw them in shadow and sunshine, I saw them at dawn and at night, Go on and go on, and go over the road to the hill of delight;

Divine than anything human the glow on their faces who roam?"

"They are traveling home," cried the shadow; "home, home—they are traveling home!"

"I saw them come out of the cities, I saw them go over the hills, I saw little children, old people, smart sons of the forge and the mill;

The young with the feet of light dancing; the old with a yearning for rest;

"They are traveling home," said the shadow; "lie down on the dear mother-bread!"

Ri-Ri Gets a Lot of Attention

Here is "Ri-Ri," five-day-old lioness, being nursed by one of the nurses at a hospital in Chicago, where she was taken for malnutrition. This strange patient is eating twenty-four-hour-a-day from private nurses and has a private room. When she recovers she will be returned to her birthplace, the private zoo of George F. Stetz in Holland, Mich.

Lack of Courageous Leadership One Cause of World Depression

Meivin A. Traylor, of Chicago
Cites Human Failure in World War Crisis

"New Era" Theory a Myth

Speaking before the International Chamber of Commerce at Washington, Meivin A. Traylor, President of the First National Bank of Chicago, said in part:

Reams have been written, countless addresses have been made, and more will follow in the search for the cause of the present depression. I am assuming that human conduct has differed little in most countries of the world. It is my purpose to talk about the human side of the problem.

Human Angle of Problem

In speaking more particularly of the character of responsible leadership in America, I am assuming that human conduct has differed little in most countries of the world. It is my purpose to talk about the human side of the problem.

It is the responsibility of business and political leadership to promote the economic and social welfare of the community. It may be worth while to take stock of our conduct and see how we have measured up to our duty in recent years. This much, however, seems certain. The "new era" theory current in the days of our inflated prosperity was a myth, and is equally valueless in our search of relief.

The forces that have been and are at work are as old as the history of economics. Why should there be in this land of plenty, with unlimited facilities for production, abundant harvests, and a surplus of credit, millions of hungry and unemployed? It is not the fault of those who would work, but can find no work to do. They have little or no choice in shaping their course and while it is true that society owes no one a living, society as far as humanly possible owes every one an opportunity to earn a living.

In that obligation we have failed, and until we know wherein we have failed and why, we will not have found that stability which is the universal desire of mankind today.

The point I would make is that, without prejudice as to guilt, the human element did fail in 1914, and the world then began its march to the tragedy of 1932. For it is tragedy when in a world of plenty there should be so much poverty, and when, in a nation which boasts of its riches, five million or more people willing to work should be unable to find employment.

It is a challenge to the world, and especially to American business and political leadership, which cannot be ignored and must not be shirked. Causes must be determined with some degree of accuracy and remedies discovered and applied. The task is largely that of business leadership.

We would follow almost endlessly the literature on causes and remedies for the world situation, most of them dealing with the purely economic or the semi-political-economic side of the question. To the lay mind it is all more or less confusing, and to the mark at the desk frequently beyond the realm of the practical.

But I cannot escape the conclusion that the dawn of the present situation broke over the world in July, 1914, and it came not from ignorance of the ultimate results of the course chosen, but because of a complete breakdown of world political sanity.

There was no lack of knowledge of the consequences, but rather of courage to face the facts, to throttle national pride, and to demand common counsel in an honest search for a basis of peace. Such a search might have failed, but unfortunately, history does not indicate that it was honestly made.

Leadership Was Lacking

I am not a pacifist. Until enlightened understanding points us to the counsel table of peace rather than to the battlefield, there will be a need for armies and navies. But let us not say that we choose the latter course in ignorance of the tremendous costs of the game. Rather let us admit generally the lack of courageous leadership which dares to align itself with the right at the risk of being unpopular.

HY Presents Problem to Engineers

The agricultural engineer brought to the desert places in southern California and Nevada and the "desert" seemed as a rose. This account, the years intervening have brought a new problem, and now the farmers must do something about the water flowing through the channels of the projects.

It has been found, after some years operation, that the water being supplied has a fairly large content of boron, an element beneficial to plants in small quantities, but decidedly injurious when present in too great quantities.

The continual evaporation of the water over a period of years has left deposits of boron, which already have ill effects upon the plant life fed by the water.

The engineers are faced with one of two solutions, either mixing the water with boron-free water or else locating it cutting off the sources of the boron, a difficult task in the latter case, for some of the sources of irrigation water come from underground canals—Washington Star.

by Steam-Driven Plane Does Not Appear Likely

There is news that an inventor has perfected a steam engine intended for use in airplanes. Curiously enough, it is a reversion to the earliest days flying, for one of the first planes was its propeller driven by a steam engine.

Wonderful claims are made for the engine, and it remains to be seen whether they can be substantiated. It is stated, too, that its boiler is heated by means of crude oil and that it consumes so little fuel that it could remain in the air for nearly a month at a time. This seems scarcely possible.

The inventor claims that his engine will develop one horse power for each pound of weight, and that it will enable a plane to ascend to a height of 10,000 feet.

So far it has been tested only on the ground, where its performance has been satisfactory, though, it is to be taken into the air by a well-known pilot.

Actually, it seems unlikely that the engine can heat the petrol motor for besides fuel for its boiler and for its working parts it must carry quantities of water, and water is very heavy.

Why Ball Revolves

In three more decades a polished ball, weighing more than 500 pounds, atop a monument in Elmwood cemetery, Salem, N. H., probably will be turned a complete revolution by the touch of human hands.

The customary dowel pin was omitted in putting the ball on the monument.

As a result, winter weather already has turned the ball over 18 inches, and a quarter of its circumference in the last ten years. Ice forming in the saucer-like hole lifts the ball slightly. The sun naturally melts the ice to the east of the ball first, causing it to settle to that side, thus shifting.

Why Russia Exiled Jews

Exile to Siberia was not decreed by the czarist government of Russia on account of Jewish affiliation, excepting that the Jews in Russia are largely suspected of political intrigue and of insubordination. This led to the di. like of the Jewish race as a whole, served to render it practically impossible for a Jew in Russia to live or before any tribunal to prove innocence of crimes attributed to him. All political offenses—and this included practically all offenses, if deemed were punishable by exile.

Why Ring Around Moon

The ring around the moon is a halo of light rays due to ice crystals. They are caused by the refraction of light passing through the crystals and by the reflection of light from their surfaces. The differences in the size and the positions of the crystals account for the great variety of halos. Those caused by refraction are white; those by reflection are colored.

Why Clap of Thunder

Thunder is caused by a vacuum, and out Nick Sprank in Modern Mechanics and Inventions Magazine. When lightning rends the air, a partial vacuum is formed by the great heat, and air rushes in to fill the space and makes a thunder clap.

Why Plants Are Sweet

The principle in sugar-yielding plants which produces the sweet taste is a chemical substance known as sucrose, and is the same regardless of the type of plant from which the sucrose is extracted.

Why Rats Are Useful

One reason for the rat's usefulness as a scientific experiment is that a rat in a rat's life is about equal to year in the life cycle of a human being.

Why Shoes Are Forced Off

When a person falls from a great height or is involved in an explosion, his shoes are forced off the feet by the pressure of the air.

Why Diamonds Are Cold

Diamonds are cold to the touch because they are good conductors of heat.

Why Called "Riffling"

The riffling is so called because its resembles the whirling and striking of a bullet.

MILTON

Mr. and Mrs. Alf Coffin and children visited her parents, Mr. and Mrs. Walter Millett over the week end.

Harry Billings was in Rumford Saturday night.

Mr. and Mrs. Bert Woodsum of Mechanic Falls visited at Clarence Jackson's Sunday.

The Soap Club met with Mrs. J. H. Ackley Saturday afternoon. The next meeting will be with Mrs. Cora Millett.

Mrs. Olive Bubler is reported gaining at the Eye and Ear Infirmary in Portland.

Earl Buck and family visited at Walter Millett's recently.

Mr. and Mrs. Carleton Clifford visited her mother, Mrs. Ada Billings, one day last week.

Llewellyn Buck and Charles Poland are getting up a large wood pile.

Perkins Valley, Woodstock

Charles Silver and family spent several days in Gorham, N. H., with her father, Oliver Lawrence, and brother, Albert, and family.

Vill Silver is still caring for her daughter, Mrs. Ned Herick.

Leon Poland and family called on her aunt, Mrs. Nettie Rich, in Norway Sunday.

Mrs. Nelson Perham and sons Melford and Norman, were callers at Clarence Perham's Sunday evening. They found Mr. Perham better but still in bed. He has been laid up three months with blood poison in his leg.

Ethel Smith has been visiting Emma Perham a few days.

Melford Perham has finished sawing 70 cords of fire wood for Alva Hendrickson and will saw Gayden Davis' wood this week.

EAST MILTON

The roads are getting pretty good in this place.

Grace Roberts was taken to South Gardiner a few days ago.

Fannie Farnum is staying alone at present.

Charles Cone and Mr. and Mrs. Floris Poland were at Auburn last Saturday.

School began again Monday, the 11th, with Mrs. Rena Abbott again as teacher.

Jed Billings is driving the pulp wood for Asa Sessions.

Clifford Ethridge was in this place a few days last week.

Alton Buck is cutting wood at present.

Horace Hopkins visited at Roger Farnum's one night last week.

Margaret Winslow is staying at Mary Thompson's for a few days.

Roger Farnum and wife had company from Lewiston over Sunday.

Harry Billings and family were in this place Sunday.

Horace Hopkins is staying at Jed Billings' at present.

Mrs. Stella Sessions is in very poor health.

RESOLUTIONS OF RESPECT

"One by one they enter the Golden Gate."

Whereas our Heavenly Father has again entered Round Mountain Grange No. 162, P. of H., and borne to the great Grange above our worthy and highly esteemed Brother, J. S. Rich.

Whereas many can testify to his loyalty to the Order, also his many very generous gifts and his willingness to aid the Order in any way at any time.

Resolved: That as an Order we extend to the bereaved family and all other relatives who may mourn their loss our heartfelt sympathy and commend them to a loving Heavenly Father for comfort in their sad bereavement.

Be it further resolved: That this tribute to his memory be placed on our records, that a copy be sent to the family and one to the Oxford County Citizen for publication, also that our Charter be draped for thirty days.

"There is no death! The stars go down To rise upon some father shore: And bright in Heaven's jeweled crown They shine forevermore."

Lilla Stearns,
Hazel Wardwell,
Edith Stearns,

Announcement

I am again asking my friends all over the county for their support in the coming election. I have filed my papers for nomination on the Republican ticket as a candidate for the office of Register of Probate for the County of Oxford, hoping I may have the same cordial support as in the past and assuring my many friends in the county that they will get the same willing attention to their needs as they have in the past.

Albert D. Park

HOW MUCH DO YOU KNOW?

Questions

- 1 Who wrote "Thanatopsis?"
- 2 In what verse and chapter of the Bible do these lines occur: "In the beginning God created the heavens and the earth?"
- 3 What are the names of the two law making bodies at Washington, D. C.?
- 4 At what temperature does water freeze?
- 5 Is it correct to say, "He don't want to do it?"
- 6 What was the name of the admiral in charge of Manila Bay?
- 7 What well known personage is the leader of the passive resistance program in India?
- 8 What is the name of the tallest building in New York that has recently been completed?
- 9 In conducting a meeting according to parliamentary law, is the chairman permitted to vote?
- 10 In the sale of merchandise, what is meant by the term gross proceeds?

Answers to Last Week's Questions

- 1 George Eliot.
- 2 The Sermon on the Mount.
- 3 The predicate is that which is said about the subject.
- 4 Centripetal force is that which tends to draw a revolving body to the center.
- 5 He expressed disapproval of the proceedings.
- 6 The capillaries are the minute blood vessels connecting the arteries with the veins.
- 7 Knute Rockne.
- 8 One, Calvin Coolidge.
- 9 When a speaker has the floor, when a vote is being taken, or when the assembly is in the midst of business that can not be abruptly stopped.
- 10 The side on which the triangle rests.

Rowe Hill, Greenwood

The Bryant School was closed Patrick's Day.

Our mail man is making his trip with his auto this week returning to Bryant Pond by way of Locke Mills.

Will Yates and family of South Greenwood were callers at Colby Ring's Monday evening.

The smelters have begun to haul Indian Pond brooks but think they will have to wait for the smelter 'til the ice starts a little more and the water is a little warmer.

Ernest Brooks has finished work for D. R. Cole and is working for Mrs. Fannie Howe this week.

Carl Brooks spent the evening at Newton Bryants Monday.

The members of the Christian Endeavor held a meeting at the school house last Tuesday evening. There is a meeting this Tuesday evening.

Mr. and Mrs. Theodore Dunham and children from Howe Hill were week end guests of Mr. and Mrs. Elton Dunham.

Miss Maude Salls remained at her boarding place, Newton Bryant's, over the week end on account of scarlet fever at Locke Mills.

We are very sorry to learn that Donald Bennett of Locke Mills is in the hospital at the present writing and hope for his speedy recovery.

Ray K. Hanson of North Newry was week end guest at Newton Bryant's.

Winifred Bryant and Ray Hanson visited his sister Mrs. Robert Cole of Howe Hill Monday.

The pupils of Woodstock High are having a few days vacation as school was closed Monday and Tuesday.

Several from this place attended Grange meeting at Bryant Pond Saturday evening and returned home in a snowstorm about midnight.

Mrs. Bessie Ring and Norma Ring entertained bad colds thru the week end.

The teacher and pupils of Bryant School visited the Greenwood Center school Friday afternoon and enjoyed a nature study also roasted marshmallows.

THE CITIZEN-PRINTERS

GROVER HILL

Mr. and Mrs. Cleveland Waterhouse are rejoicing over the birth of a son, April 19. Mrs. Waterhouse and baby are being cared for at Mrs. Charles Bean's, Bethel.

Mrs. J. Burton Abbott has been sick but is improving.

Gwendolyn Stearns arrived from Abington, Mass., Saturday, to spend a week with her parents Mr. and Mrs. N. A. Stearns.

Mrs. Alice Rolfe spent the day Tuesday at the Stearns home.

Miss Gwendolyn Stearns attended a bridge luncheon at Mrs. Tuell's, Bethel, Wednesday.

Ernest Maudt and family returned to their home at Gorham, Maine, Sunday.

The roads are in very bad condition.

NORTH WOODSTOCK

Ernest Smith of West Paris visited at George Abbott's one evening last week.

Mr. and Mrs. Edgar Davis and Harland Abbott were at Norway Monday.

Everett and Elizabeth Cole, Mrs. Herman Cole and daughter, Alice, were at Lewiston Saturday.

Willie and Lubert McGuire visited at George Cushman's over the week end.

Mrs. John Hemingway has returned home from her visit with relatives at Lewiston.

Several from this community attended Franklin Grange Saturday.

Mr. and Mrs. Herbert Noyes and family visited relatives at Weld on Sunday.

MASON

Mr. and Mrs. Herman Skillings of Northwest Bethel were guests of Mr. and Mrs. E. H. Morrill Monday.

Mr. and Mrs. Guy Morrill and family spent Sunday afternoon at the home of her parents, Mr. and Mrs. Robert Clough of Bethel.

Henry Westleigh of West Bethel is staying with his grandmother, Mrs. Lydia Westleigh.

Mr. and Mrs. Myron Morrill and family were Sunday callers at B. S. Tyler's of East Bethel.

Mr. and Mrs. Guy Morrill and family and E. H. Morrill were in Bethel Friday. Fances Morrill came home with them for the week end.

Paul Grover spent the week end at his home here.

FARM LOAN DIRECTOR

Henry S. Clarke, Chicago banker, who has been appointed by Secretary of Agriculture Arthur M. Hyde to direct the huge farm loan funds made available by the reconstruction finance corporation. Starting with \$50,000,000, the fund may grow to \$200,000,000 through sales of debentures of the corporation. About a million farmers are expected to take advantage of the crop loans this year.

New American Liner for the Pacific

Another new ocean liner was added to the fleet on the Pacific ocean when the Santa Rosa was launched at Kearney, N. J. It is the first of four vessels building for the Panama Mail line of San Francisco, the total cost of which will be more than \$18,000,000.

NEWRY

Mr. and Mrs. Erickson and two children of South Paris visited at Carl Hakala's last Sunday.

Mr. and Mrs. Hakala returned Friday night from Andover where they had been nearly all last week.

There were some people from Rumford looking over the Fred Davis farm last Saturday with the idea of purchasing.

H. E. Morton, road commissioner, had some men at work last Friday and Saturday putting gravel in the bad places in roads.

Mrs. D. E. Smith was in Bethel on business last Thursday.

Sunday, with its snow and wind, made us think winter had just stepped around the corner, but those who had not taken down their buckets got another run of sap.

Main Dome Distinctive Feature of St. Sophia's

St. Sophia, Constantinople's marvelous mosque, when it was erected by Emperor Justinian as a Christian cathedral, was made in the form of an immense Greek cross. The architect supported the structure with a hundred columns, and the brick which formed the main building material was covered with rare marbles, jaspers and porphyries of a dozen varieties and colors, drawn from quarries in various parts of the empire or from the ruins of demolished heathen temples.

But the distinctive architectural feature of the building was the main dome, probably the first great arched cupola ever erected. Within 20 years an earthquake destroyed a part of this inverted cup, but Justinian immediately restored it, and it remains in fact still as it was, rising 175 feet above the earth. Justinian commented on its lightness and durability saying that the dome was made of gold, the stone of gold brick from the city of the East.

The dome had a large arched and parabolic, the dome of the floor, and walls were covered with mosaics of gold and beauty. The dome prevented a sturdy firm roof and the walls were enriched with figures of Christ, the Virgin, the saints and the angels; and of Constantine and Justinian.

Stops Headache in Five Minutes

A Wonderful Formula Ends Aches and Pains Almost Like Magic. Something Better and Safer?

Thousands of men and women are now stopping throbbing, sick, dizzy, splitting headaches, as well as the excruciating pains of rheumatism, neuritis, toothache, etc., with a marvelous new formula that is said to be far superior to anything heretofore used.

It contains no aspirin, acetanilid, etc., and is absolutely safe and harmless. This remarkable formula, called A-VOL, is being prescribed by thousands of doctors, dentists and welfare nurses because of the quick, efficient way it relieves all types of aches and pains without depressing the heart, or causing any other harmful effects. A-Vol quickly stops the most severe pain, leaving the patient refreshed and feeling fine. Especially effective in women's period pains.

To quickly prove to yourself that this is truly a remarkable formula, just step into your nearest drug store and get a package of A-VOL for a few cents. Take a couple of tablets right there. If your pain is not gone in five minutes, the clerk will return your money.

BRYANT POND

The Parent Teacher Association held its regular meeting Thursday evening, April 14, with a good attendance. After the business meeting the program was furnished by the intermediate school. They put on a minstrel show which was greatly enjoyed by all. A penny lunch was served.

Jefferson Chapter, O. E. S., held its regular meeting Friday night with a good attendance.

B. R. Billings came home from the Eye and Ear Infirmary Wednesday. He has a trained nurse. He is gaining slowly.

Mrs. Florence Cushman has been visiting her son and wife, Mr. and Mrs. Robert Cushman, in Auburn.

Franklin Grange held its regular meeting Saturday evening with W. M. Edwin Perham in the chair. After the business meeting a very interesting program was carried out as follows:

Song, "When You and I Were Young, Maggie,"

Roll Call, Children's sayings.

Song with encore.

Mrs. Gertrude Redman illustrated talk on Child Welfare.

Miss Edith L. Soule, Augusta, Maine, accompanied her sister.

Games were played after the meeting.

Mrs. Annah Perham, who has been spending the winter with her daughter, Mrs. Bertha Houghton, in West Somerville, arrived at her home here last Sunday.

Washing on Both Wise and Thrifty in Youth

George Washington early learned the value of thrift, writes Helmy Partridge in Boys' Life, the monthly journal of the Boy Scouts of America. "There were not so many chances for a boy to earn money in those days. But Washington was accurate and exact; he was good at mathematics; he was fond of being outdoors," says Mr. Partridge. "Surveying called for all these qualities, and being a geometer's work appealed to him. At fifteen he made an accurate survey of a swampy field. The next year he went to the Blue Ridge valley on his first big job. It was a great adventure for him and paid him well, \$7.20 a day, which was good pay for a boy in those days."

Washington put this money into the Bank he ever owned, a wild fruit of 200 acres which he called "Washington's Bank." Two years later, he continued Mr. Partridge, "he had saved enough to buy another piece of 400 acres. At twenty he purchased 652 acres more, making a total of 1,552 acres which he bought and paid for with the money earned with his land before he was old enough to vote. He made 'Bankin' into a valuable property, and he kept all his life, and to which he often referred in his old age."

How We Get "Brown Study"

The phrase "brown study" was used by the poet of "Brown" in the name of a state of reverie or idle and purposeless thinking.

COUNTRY LETTERS

WEST PARIS

Mrs. Robert Young is ill from scarlet fever, and is the fourth person to have the disease.

Mrs. F. R. Penley spent the week end in Lewiston with her son and wife, Mr. and Mrs. Edward L. Penley, the latter being ill from measles.

Mrs. George D. Robertson of South Paris and Mrs. Abner H. Mann were guests Monday at Miss Mabel Rickor's.

Mr. and Mrs. Leslie Doughty and children have moved to the Earle Bacon house at Trap Corner which they have recently purchased.

Mrs. Martha Kendall, Mrs. Elva Ring and Glendine G. Ring were in Lewiston Saturday.

The Tobbits mill is employing quite a number of additional help, very largely women.

Mrs. Elvina Dennen has returned home from spending the winter with Mrs. Addie Stone, Stearns Hill, Paris.

Rev. Eleanor B. Forbes entertained the Good Will Society Thursday afternoon. It was a very pleasant occasion, visitors being present from Norway, South Paris, Mechanic Falls, and Woodstock.

Mrs. E. R. Berry has been quite ill during the past week.

Mr. and Mrs. Clarence E. Stearns entertained the nine members of the Sparks family during their stay who came to attend the funeral of Mr. and Mrs. Smith.

Zilpha Barrows, Rachel Duham and Laurel Houle, who had been ill from scarlet fever, are gaining.

The Happy Thought Group will meet Thursday with Mrs. Alice Haines Pioneer Street.

The 4-H Club met with the leader, Miss Alice Haines, Wednesday. After the business meeting the cooking class carried out the project of making a corn chowder. All had a good time.

Mrs. Maud Day was the recent guest of her aunt, Mrs. Charles Thayer and daughter, Grace Thayer, at South Paris.

Elden Verrill has moved from the Doughty house on Pioneer Street to a rent in the Association Block.

FUNERAL SERVICES OF MR. AND MRS. SMITH

Funeral services were held Wednesday for Mr. and Mrs. William Frederick Smith, who were fatally injured in a crossing accident near their home at Bryant Pond, Sunday, April 10.

Rev. Eleanor B. Forbes spoke words of comfort, and Grant Lodge, E. and A. M., West Paris, of which Mr. Smith was a member, rendered the funeral service. The floral offerings were very beautiful. The interment was in West Paris cemetery. There was a large attendance at the funeral, friends of the unfortunate couple coming from Bryant Pond and elsewhere.

Mr. Smith was the son of Mrs. Mary A. Smith Wyman of Mechanic Falls, and the late William Smith. He was born in Crescent City, Florida, Sept. 21, 1891. Besides his mother, Mr. Smith leaves a sister, Ellen Beatrice Smith, and a half-brother, Lorraine Stetson, and uncles, aunts, and cousins.

Mrs. Smith was Miss Delora Agnes Sparks, and was born in Boston, Feb. 19, 1892, the daughter of Reuben G. Sparks. After the death of her mother she came to Snow's Falls to reside with her uncle and aunt, Mr. and Mrs. John Wood. Besides the relative mentioned she is survived by two brothers, Hector of Indiana and George of Boston.

Mr. and Mrs. Smith are survived by a son, William Frederick Smith, aged 14, who had been at a Portland hospital since the accident, but was present at the funeral services.

Mr. Smith had been employed by Lewis M. Mann & Son for more than 20 years, first at West Paris and later at Bryant Pond, where he was superintendent of the lathe department. He was greatly interested in Free Masonry.

Mrs. Smith was a member of the West Paris Universalist church, and West Paris Grange. Mr. and Mrs. Smith were highly respected people, and their tragic death cast a gloom over the whole community.

GILEAD

Mr. and Mrs. Griffin Collette and Mr. and Mrs. Louis Griffin have returned to their homes in West Paris and Portland.

The remains of the late Walter Griffin were moved from the tomb at Bethel and laid at rest in Pine cemetery on Friday afternoon.

Mr. Herbert Wheeler and family plan to move to Dixfield, Maine, May 1st, where Mr. Wheeler has employment in the mill. They will be missed in this community where they have been lifelong residents. Best wishes are extended to them in their new home. We understand that their farm is to be occupied by Mr. and Mrs. Lisette.

Among recent visitors were Mr. and Mrs. J. Kistead of Mason.

Roy Dorey has purchased a pair of horses from George Leighton.

Mr. and Mrs. Sherman Emery are receiving congratulations on the birth of a son born Saturday.

Mr. and Mrs. O. B. Brown of Berlin, N. H., spent the week end at their summer home here.

Miss Eva Beck of Gorham, N. H., spent the week end with her mother, Mrs. Ruth Proof.

Harry Taylor went to Dixfield Tuesday to visit friends.

Mrs. Josephine Wheeler of Gorham, N. H., is spending a few days with her son, H. E. Wheeler and family.

Frank Gallagher and James McAlister of Boston, Mass., were recent guests of relatives in town.

F. B. Leighton and family were recent visitors in Portland.

Miss Sophia Loser has gone to Shelburne, N. H., where she has employment at the Philbrook farm.

Fred Taylor has gone to Watford, Vt., to visit his brother, Howard Taylor and family.

Mr. and Mrs. Howard Wheeler and Mrs. Herbert Wheeler were in Dixfield Saturday.

Richard Powell of Peru was a business visitor in town Tuesday.

Mrs. Yvonne Miller has completed her duties at the home of Mrs. Prescott Bennett.

Joseph Bloddeau was a recent guest of friends in Berlin, N. H.

Mrs. John Richardson, Mrs. Florence Bryant and son Clayton were visitors in Berlin, N. H., Wednesday.

A. L. Gregory of Berlin, N. H., was a business visitor in town this week.

Mrs. Eva Steett of Rumford is assisting in the home of Mrs. Margaret Emery.

ADD A LUXURIOUS TOUCH TO YOUR FOOD ECONOMIES

To count our pennies, to keep food budgets down, and yet to provide tempting fare—that is real kitchen art.

That is why chocolate's popularity never wanes. For chocolate gives the simplest, most economical dessert, a touch of luxury.

Let chocolate work its magic with such old standbys as rice or bread pudding, and your family will give three cheers for your most economical dishes.

Chocolate Bread Pudding

1 1/2 squares unsweetened chocolate, cut in pieces
3 eggs, slightly beaten
1 cup milk
1 cup sugar
Add chocolate to milk in double boiler; heat. When chocolate is melted, beat with rotary egg beater until blended. Combine sugar, salt, eggs. Add chocolate mixture gradually, stirring vigorously. Add vanilla. Place bread in greased baking dish. Pour mixture over it. Place dish in pan of hot water. Bake in moderate oven (350° F.) 50 to 60 minutes, or until pudding is firm. Serve hot with hard sauce, or cold with cream. Serves 6.

Berkshire Pudding

3 squares unsweetened chocolate, cut in pieces
2 cups milk
1/2 cup sugar
6 tablespoons flour
1/4 teaspoon salt
vanilla

Add chocolate to milk, heat in double boiler. When chocolate is melted, beat with rotary egg beater until blended. Soak gelatin in cold water. Add sugar and salt; mix well. Add to chocolate mixture; stir until gelatin is thoroughly dissolved. Strain. Chill until slightly thickened, stirring occasionally. Add fruit, nuts, vanilla. Bake in moderate oven (350° F.) 50 to 60 minutes, or until pudding is firm. Serve hot with hard sauce, or cold with cream. Serves 6.

Chocolate Fruit Pudding

3 squares unsweetened chocolate, cut in pieces
2 cups milk
1/2 cup sugar
1/2 cup cold-water
1 cup sugar
1/2 teaspoon salt

Add chocolate to milk, heat in double boiler. When chocolate is melted, beat with rotary egg beater until blended. Soak gelatin in cold water. Add sugar and salt; mix well. Add to chocolate mixture; stir until gelatin is thoroughly dissolved. Strain. Chill until slightly thickened, stirring occasionally. Add fruit, nuts, vanilla. Bake in moderate oven (350° F.) 50 to 60 minutes, or until pudding is firm. Serve hot with hard sauce, or cold with cream. Serves 6.

Chocolate Mousse

3 squares unsweetened chocolate, cut in pieces
2 cups milk
1/2 cup sugar
1/2 cup cold-water
1 cup sugar
1/2 teaspoon salt

Add chocolate to milk, heat in double boiler. When chocolate is melted, beat with rotary egg beater until blended. Soak gelatin in cold water. Add sugar and salt; mix well. Add to chocolate mixture; stir until gelatin is thoroughly dissolved. Strain. Chill until slightly thickened, stirring occasionally. Add fruit, nuts, vanilla. Bake in moderate oven (350° F.) 50 to 60 minutes, or until pudding is firm. Serve hot with hard sauce, or cold with cream. Serves 6.

Chocolate Sauce

3 squares unsweetened chocolate, cut in pieces
2 cups milk
1/2 cup sugar
1/2 cup cold-water
1 cup sugar
1/2 teaspoon salt

Add chocolate to milk, heat in double boiler. When chocolate is melted, beat with rotary egg beater until blended. Soak gelatin in cold water. Add sugar and salt; mix well. Add to chocolate mixture; stir until gelatin is thoroughly dissolved. Strain. Chill until slightly thickened, stirring occasionally. Add fruit, nuts, vanilla. Bake in moderate oven (350° F.) 50 to 60 minutes, or until pudding is firm. Serve hot with hard sauce, or cold with cream. Serves 6.

Chocolate Frosting

3 squares unsweetened chocolate, cut in pieces
2 cups milk
1/2 cup sugar
1/2 cup cold-water
1 cup sugar
1/2 teaspoon salt

Add chocolate to milk, heat in double boiler. When chocolate is melted, beat with rotary egg beater until blended. Soak gelatin in cold water. Add sugar and salt; mix well. Add to chocolate mixture; stir until gelatin is thoroughly dissolved. Strain. Chill until slightly thickened, stirring occasionally. Add fruit, nuts, vanilla. Bake in moderate oven (350° F.) 50 to 60 minutes, or until pudding is firm. Serve hot with hard sauce, or cold with cream. Serves 6.

Chocolate Glaze

3 squares unsweetened chocolate, cut in pieces
2 cups milk
1/2 cup sugar
1/2 cup cold-water
1 cup sugar
1/2 teaspoon salt

Add chocolate to milk, heat in double boiler. When chocolate is melted, beat with rotary egg beater until blended. Soak gelatin in cold water. Add sugar and salt; mix well. Add to chocolate mixture; stir until gelatin is thoroughly dissolved. Strain. Chill until slightly thickened, stirring occasionally. Add fruit, nuts, vanilla. Bake in moderate oven (350° F.) 50 to 60 minutes, or until pudding is firm. Serve hot with hard sauce, or cold with cream. Serves 6.

Chocolate Ganache

3 squares unsweetened chocolate, cut in pieces
2 cups milk
1/2 cup sugar
1/2 cup cold-water
1 cup sugar
1/2 teaspoon salt

Add chocolate to milk, heat in double boiler. When chocolate is melted, beat with rotary egg beater until blended. Soak gelatin in cold water. Add sugar and salt; mix well. Add to chocolate mixture; stir until gelatin is thoroughly dissolved. Strain. Chill until slightly thickened, stirring occasionally. Add fruit, nuts, vanilla. Bake in moderate oven (350° F.) 50 to 60 minutes, or until pudding is firm. Serve hot with hard sauce, or cold with cream. Serves 6.

Chocolate Truffle

3 squares unsweetened chocolate, cut in pieces
2 cups milk
1/2 cup sugar
1/2 cup cold-water
1 cup sugar
1/2 teaspoon salt

Add chocolate to milk, heat in double boiler. When chocolate is melted, beat with rotary egg beater until blended. Soak gelatin in cold water. Add sugar and salt; mix well. Add to chocolate mixture; stir until gelatin is thoroughly dissolved. Strain. Chill until slightly thickened, stirring occasionally. Add fruit, nuts, vanilla. Bake in moderate oven (350° F.) 50 to 60 minutes, or until pudding is firm. Serve hot with hard sauce, or cold with cream. Serves 6.

Chocolate Bark

3 squares unsweetened chocolate, cut in pieces
2 cups milk
1/2 cup sugar
1/2 cup cold-water
1 cup sugar
1/2 teaspoon salt

Add chocolate to milk, heat in double boiler. When chocolate is melted, beat with rotary egg beater until blended. Soak gelatin in cold water. Add sugar and salt; mix well. Add to chocolate mixture; stir until gelatin is thoroughly dissolved. Strain. Chill until slightly thickened, stirring occasionally. Add fruit, nuts, vanilla. Bake in moderate oven (350° F.) 50 to 60 minutes, or until pudding is firm. Serve hot with hard sauce, or cold with cream. Serves 6.

Chocolate Fondue

3 squares unsweetened chocolate, cut in pieces
2 cups milk
1/2 cup sugar
1/2 cup cold-water
1 cup sugar
1/2 teaspoon salt

Add chocolate to milk, heat in double boiler. When chocolate is melted, beat with rotary egg beater until blended. Soak gelatin in cold water. Add sugar and salt; mix well. Add to chocolate mixture; stir until gelatin is thoroughly dissolved. Strain. Chill until slightly thickened, stirring occasionally. Add fruit, nuts, vanilla. Bake in moderate oven (350° F.) 50 to 60 minutes, or until pudding is firm. Serve hot with hard sauce, or cold with cream. Serves 6.

Chocolate Souffle

3 squares unsweetened chocolate, cut in pieces
2 cups milk
1/2 cup sugar
1/2 cup cold-water
1 cup sugar
1/2 teaspoon salt

Add chocolate to milk, heat in double boiler. When chocolate is melted, beat with rotary egg beater until blended. Soak gelatin in cold water. Add sugar and salt; mix well. Add to chocolate mixture; stir until gelatin is thoroughly dissolved. Strain. Chill until slightly thickened, stirring occasionally. Add fruit, nuts, vanilla. Bake in moderate oven (350° F.) 50 to 60 minutes, or until pudding is firm. Serve hot with hard sauce, or cold with cream. Serves 6.
